If you have any questions during this meeting, please type them in the chat, and we will respond to them at the end.

What is an NX?

You're here because you have at least one "incomplete" in a course from the spring/summer 2020 or fall 2021.

- Students who received an incomplete in the spring/summer 2020 and received an appeal have to complete the course by May 14th, 2021 to earn credit.
- Students who received an incomplete in the fall 2021 have to complete the course by June 1st, 2021 to earn credit.

You must successfully complete these courses to earn credits or you will need to retake the ENTIRE COURSE!

How do I turn an NX into credit?

- To complete an NX (and earn the credit) you need to show us you have mastered the standards for that course.
- Teachers from across the school have developed mastery opportunities - projects that will show us that you're ready to have earned your credit.

To earn your credit:

1. For each course, join the Google Classroom.
2. Begin work ASAP on the projects assigned to you!
3. Attend mandatory office hours each week.
Attendance will be taken!!
